

Our country and armed forces are on the brink of recognizing one of the saddest days in history. Patriots Day, Sept 11, has been etched in the minds of both civilian and military alike. We will not be able to turn back the hands of time; however, we can make positive steps toward thwarting such an act again. We ask that you reemphasize to your commanders, supervisors, subordinates and family members how important it is to be vigilant and report suspicious activity. Post and brief to large groups if possible the following Eagle Eyes slide.

# **“EAGLE EYES”**

**“Eagle Eyes” is a community based defensive program designed to identify potential indicators of terrorist activity. The Air Force Office of Special Investigations and the Misawa Air Base Security Forces need your help to identify possible suspicious activities that may indicate possible terrorism targeting. These activities are:**

- ✧ Someone recording or monitoring activities.
- ✧ People or organizations attempting to gain information about military operations, capabilities, or people by mail, fax, telephone, or in person.
- ✧ Any attempts to measure reaction times of security personnel in order to assess strengths and weaknesses.
- ✧ Purchasing or stealing explosives, weapons, ammunition, etc. Also includes acquiring military uniforms, decals, flight manuals, passes or badges (or the equipment to manufacture such items) or any other controlled items.
- ✧ People who don't seem to belong in the workplace, neighborhood, business establishment, or anywhere else.
- ✧ Putting people into position and moving them around according to their plan without actually committing the terrorist act.
- ✧ People and supplies getting into position to commit the act. This is a person's last chance to alert authorities before the terrorist act occurs.
